

from the l concerns/questions re: letter-6/13/10
Joyce Scott Barry Cooper
AGL-003, Office of Regional Executive Manager

08/02/2010 10:27 AM

the received our response and called last week with follow up questions which I suggested they put in writing. I had previously given them the state of IL EPA to share their concerns about air quality. So now they have the city of Chicago website to voice their concerns about noise and the state EPA for air quality.

Joyce Scott, AGL-2
Deputy Regional Administrator
Great Lakes Region
847-294-7294

concerns/questions re: letter-6/13/10

Hello Joyce,

We have appreciated your assistance to our "plight" & feel that you can help us further...., as you have offered us your e-mail.- Thank you. You do seem like a warm & caring person.

Please answer for us:

1. Can you (or Barry Cooper), or: have you already informed, the City of Chicago(COC), which we presume includes Mayor Daley-prominently(?) that we are being, & have been HARRASSED & TROUBLED by all of the airplanes that they have afflicted us with?
2. Does your office have authority over this matter? Furthermore, what exactly does your office (FAA) have regulation(s) over?
3. Do you agree that it is proper for airplanes to fly directly over people? Atlanta & New York have not done this? Why is this justified here?
4. Our rights as U.S. Citizens ARE being violated – are you in agreement on this?

We truly would like for you to answer these questions. You have been helpful. However, we are still unsatisfied & offended & HARRASSED!

This matter is very dear to us. Our minds/hearts/& body's have been affected. It is like night & day when "all of these airplanes" are around or not around. The air has a "gas" smell to it. We notice the AIRNow site is indicating worse & worse air quality conditions. Ozone & particulates are always indicated, which are airplane byproducts.

Please, Joyce, answer these questions & let us know if you(at your office) has done anything about this or are planning to do so. We request please: that Mr. Cooper (or yourself) would please contact the

COC and tell them that we are harassed and troubled (& rightfully so) with their runways/AIRPLANES! If you would please contact them they would be more likely to pay attention & hopefully do "what is right"!

Most Sincerely,
